V/S

About the company

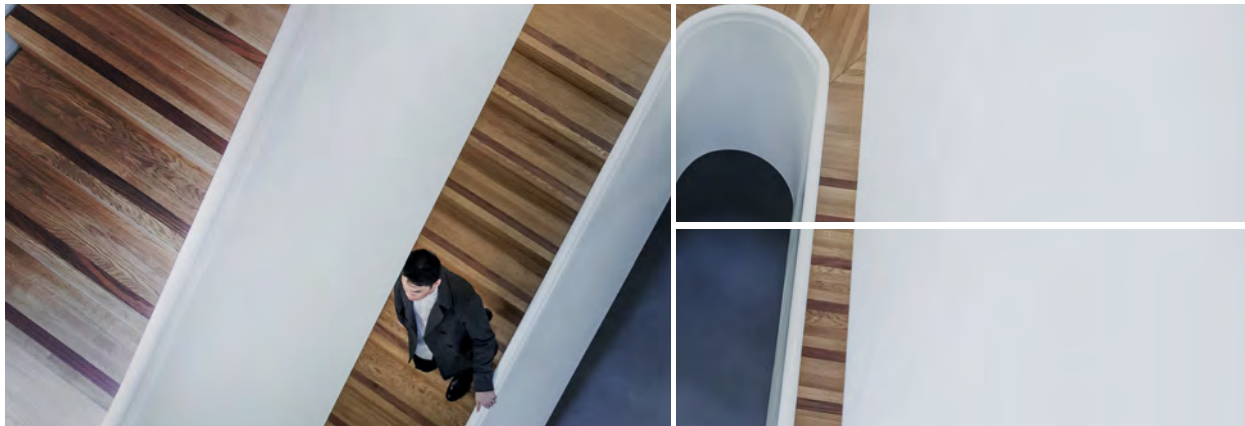

Spine Infratech is an integrated design and construction firm established in 2012, offering a comprehensive range of services: construction, project management and interior designing.

We are a name that's celebrated for our fresh interpretations of living and working environments that address client vision and functionality. As a company, we prefer a collaborative approach to design that encourages our clients to be a part of the process of design development.

We value quality, creativity and distinction right from taking on the role of the main contractor to providing engineering solutions and design inputs.

Our Expertise

At Spine Infratech, we aim to create spaces that enhance modern living through creativity and innovation while maintaining the highest standards of quality and cost effectiveness. This outlook enables us to put our client's objectives as our top priority.

01

Our Team

Creative Director

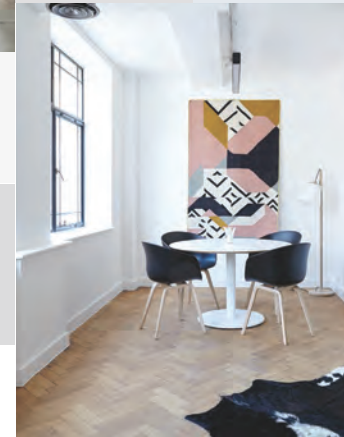

Alka Srivastava is the Creative Director at Spine Infratech. She completed her Graduation in Interior Design from London College of Communication (LCC) at University of the Arts, London.

While in London, she also enriched her experience by working at the world renowned furniture design company Roche bobois.

She came back to India after completing her studies and gaining experience in London. She has since engaged herself in various boutique end-to-end residential and commercial projects. She effortlessly blends the style quotient of clients, functionality of the space and innovation in usage of material to create a dream space that has earned her much appreciation from her clients.

Director, Architectural Division

With over 15 years of experience in the field of architecture and structural planning, Kapil Tyagi brings with him a unique and valuable blend of expertise for all valued customers . He has extensively worked on projects ranging from individual residential units to group housing, offices and retail spaces. His immaculate planning , eye for detail and accurate construction management helps deliver quality projects in estimated time.

02

Marketing Director

Major Abhinav Singh Rawat brings with him a unique blend of experience from the hospitality, insurance and realty sector. An alumnus of IHM, Pusa, he has worked with Taj Hotels and Palaces and Kotak Mahindra before joining the Team at Spine. He is also a commissioned officer in the Territorial Army and an alumni of the prestigious Indian Military Academy, Dehradun.

Construction & Civil Work

Concrete, wood & structural steel construction; Soil mechanics & foundation; Building materials.

CORPORATES & WORKSPACES

OUR
PROJECTS

ELEGANT IN DETAIL

3500 sq.ft / 50 Days

Gurgaon

Thematic conceptualization; All design inputs; Color schemes and material selection

The brief shared was to create an interactive, quirky and yet highly functional space for the startup logistics venture.

The concept of the startup was incorporated in many features like wall treatments, lighting, signages and graffitis.

FEEL HOME AT OFFICE

3250 sq. ft / 45 Days
Gurgaon

Complete design development
and fitouts.

An office for techies, the main idea was to use a lot of natural elements to create a conducive ambience. A blend of neutral and dominant colors was chosen as the color palette to add a zing factor in the look and feel of the entire space.

IN NATURE'S HARMONY

3370 sq. ft / 60 Days

Gurgaon

Planning & layout; Design
development; Complete fitout
execution

Converting a basement floor into a radiant and energizing space was done by creating full sized windows, high exposed ceiling and use of greens wherever possible. A mix of pastels was introduced to create a vibrant feel in the office, much appreciated by the clients.

PLAYFUL AT OFFICE

3000 sq. ft / 40 Days

Gurgaon

Conceptualization; Thematic design elements and wall treatment; Color schemes; Material selection

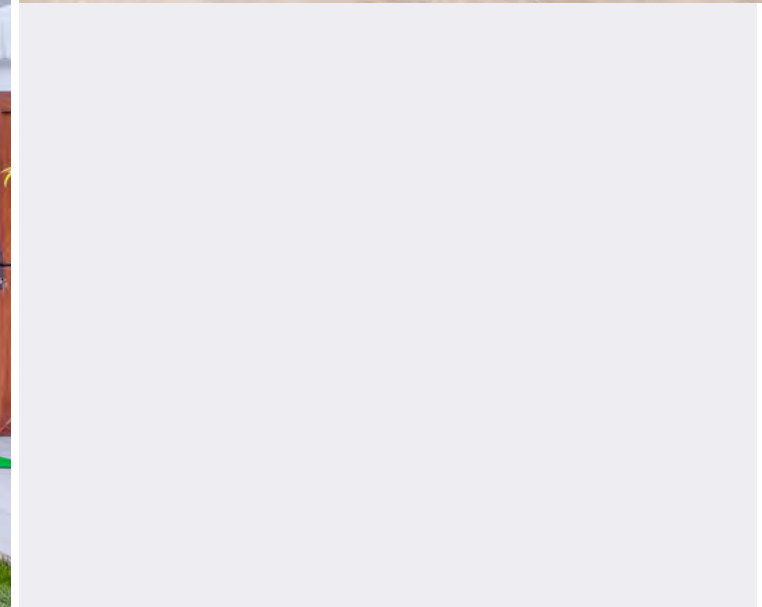

The brief shared was to create an inviting workplace which has ample interactive elements and spaces for brainstorming sessions. The brand colors were extensively used in the design theme to keep up with the spirit of the company.

SPEAKING OF ELEGANCE & SIMPLICITY

This 3 storey building was structurally modified and completely remodeled into an elegant, simple and contemporary office for a Senior Advocate. It earlier existed with smaller rooms which lent a cluttered look to the space. The walls were broken down to give even and interrupted spaces, visually connected to each other. The ground floor boasts of an inviting reception and waiting lounge and open discussion zone, seamlessly attached to the lounge.

First floor houses the conference room. A sleek sliding & folding partition cordons of the conference room from the informal meeting room which together become one space for bigger meetings. There is an L shaped cabin for the associates supporting a more open and inclusive work environment.

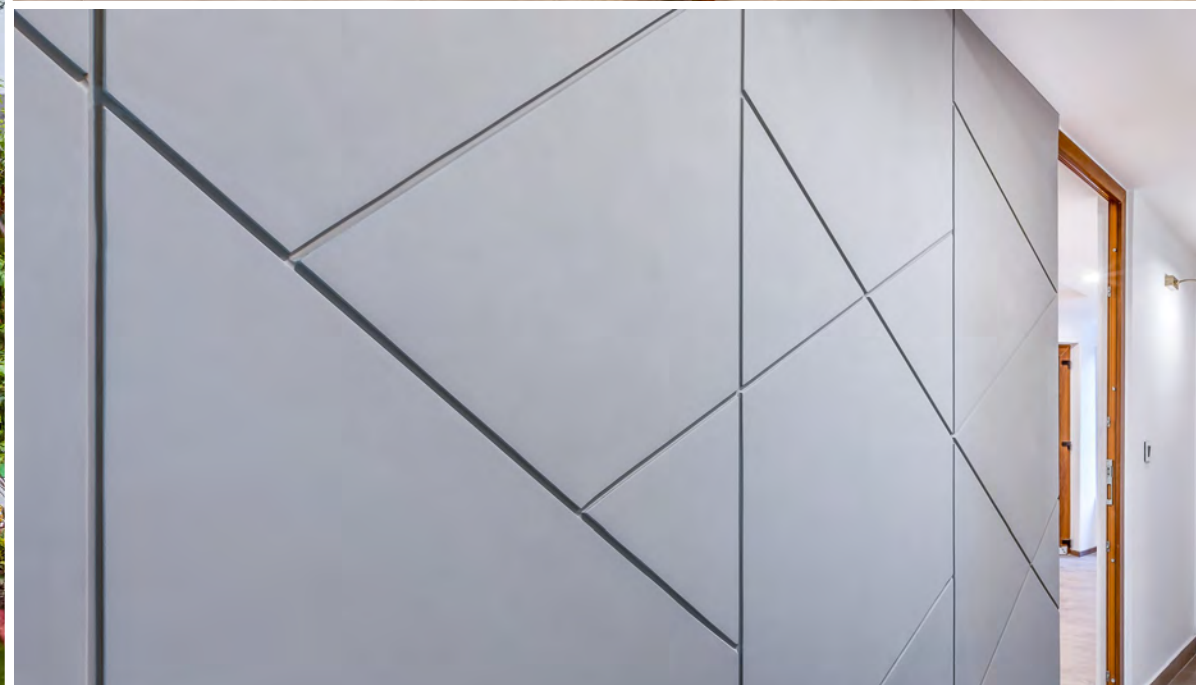

Each space has a uniquely designed bookshelf, complementing the setup and decor of the space .

The master chamber is located on the second floor.

Since the client also emphasized on a naturally ventilated space, there were big windows planned on all floors with abundant use of glass. These give all the chambers an exterior view while keeping things bright.

THE WEEKEND GETAWAY

The weekend getaway was designed for a family which loves hosting and toasting. The 3 bedroom apartment was turned into 2 bedrooms apartment with huge lounge, a bar space, an open plan kitchen and a cosy dining space. The lounge is an inviting space with an assorted seating ranging from the quintessential chesterfield sofa to swings for the enthusiastic lot.

The step up low height bed was designed for the kid's room to break from the regular available options. Continuing with the feature wall, the brick wall was done in an olive green to complement the rustic solid wood flooring

An expansive bathroom with a crisp corian top housing 'his' and 'her' basin. The walls are cladded in hand cut hexagonal tiles. Diagonally opposite to the built in jacuzzi is a wall hung LED screen to enhance the overall experience.

THE PARISIAN PARADISE

Intricate cornices, earthy flooring, bold color palettes and patterns and offbeat tones for woodwork were brought together to transform this 3 bedroom apartment into a true Parisian delight. Special attention was given to the detailing of all furniture pieces which were a concoction of various styles such as sofa in limed oak finish, coffee table in rustic gold finish, grandma's crockery unit and a sleek corian top dining table.

' Nothing brings people together like good food '. And so we designed this kitchen, breaking the usuals of wooden and neutral tones. A bold monochromatic olive green kitchen with hints of rose gold , full height cabinetry and intricate cornices to add an old world charm .

Lobbies and passages are the trickiest spaces to design. With the constrained and unequal spaces , the usage of materials & colors and the lighting has to be done very thoughtfully to ensure a cohesiveness with the ambiance of the rest of the space.

THE ECLECTIC HAVEN

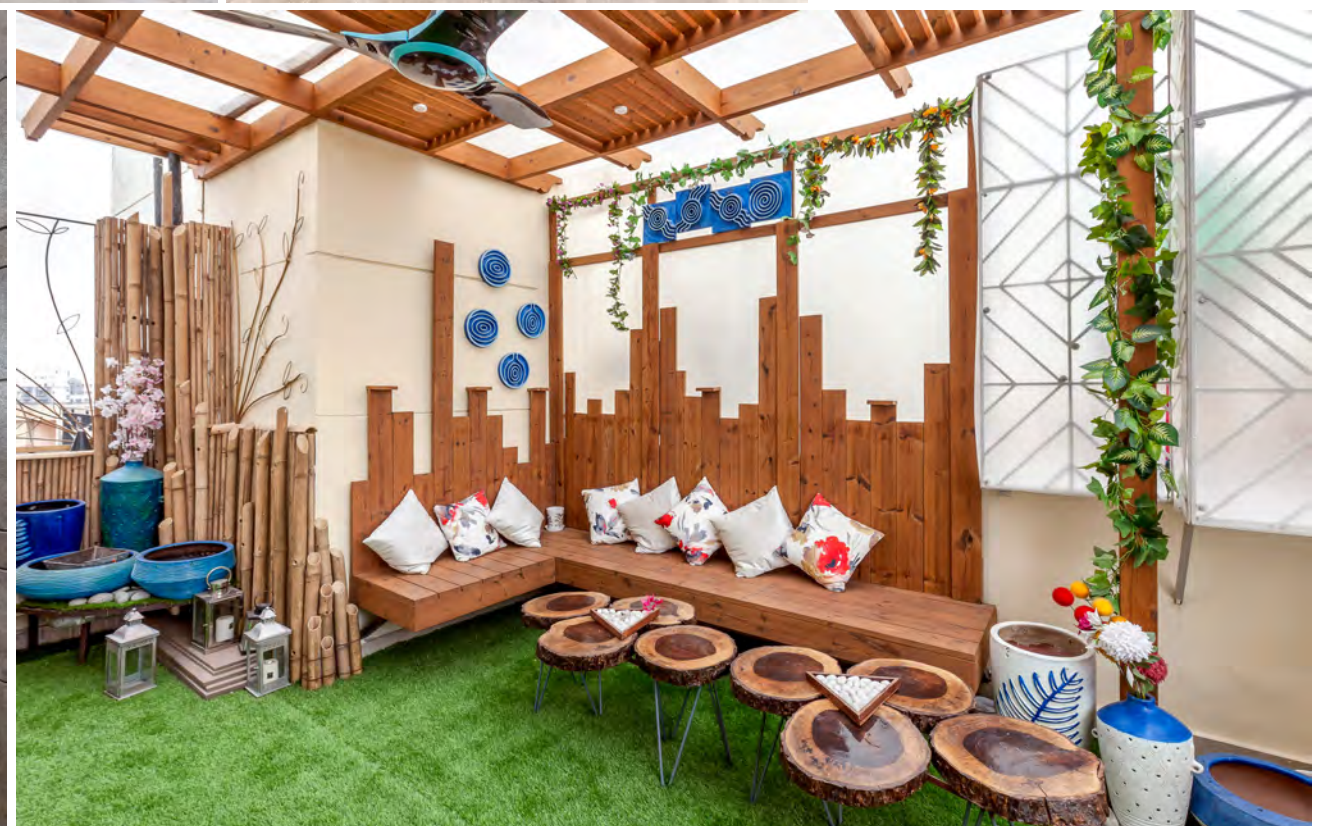

A fusion of styles, materials, textures and colors completes this eclectic haven. A template of grey, black and gold was created for the entire house which were incorporated in members such as doors, wall features, storage units and furniture. The corian backlit railing with gold plated hand rail is an eye catching feature of the house.

A cosy walk in bar was tucked in one corner near the master bedroom. A splash of green was added in form of creepers running over solid wood beams. Bespoke bar counter and unit were designed to make it a fully functional space perfect for hosting a small gathering.

The cosy terrace is a ideal place to host get togethers. Turfed flooring, ipe cladding on walls and a customized pergola make this terrace a perfect place to unwind .

HOUSE WITH A GROWING UP STORY

Spine ventures into luxury floors, built from scratch with complete interior design solutions and customized furniture. All stages such structural planning, space planning, building elevations, furniture layouts and interior working drawings of electricals, plumbing, door & window details, flooring, false ceiling and lighting were planned with utmost attention to detail by our in house team of architects and designers.

A playful experiment with materials,
finishes, textures and patterns
translated into a unique and luxurious
space which won much appreciation
from our clients.

The bathroom walls are
cladded with cement
finish rustic tiles
juxtapositioned with
wooden look tiles to
create an earthy palette

The backdrop of bed in each room has a unique character in terms of colors, textures and patterns creating and uplifting a distinct theme in each space

Timeless solid teak wood shutters are used alongside olive green tone to create a streamlined and elegant looking kitchen

SOULFUL HOMES

Terrace and Glasshouse Design, Dwarka
Concepts, execution, lighting and furniture

WHERE DREAMS COME HOME

Penthouse, Dwarka

Complete designing; Layouts and
planning; All civil work; Lighting;
Bespoke furniture

Brief was to create a seamless spatial flow with minimalistic look. There was expansive use of wood to break the monotony of straight lines and white hues. Tailor made furniture and lights added to the character and spirit of the entire house.

The daughter's room was done in hues of green with incorporation of floral motifs through wall features and soft furnishings to give a fresh and playful look. A raised sit out area was created in the corner with full height glazed windows.

READY FOR THE GAME

650 sq.ft / 40 Days

CV Bar, Cantonment Area

Designing and execution;
Bespoke furniture

A transition into the english taverns
with a leisurely and unwinding feel.
A cool color palette of blue and grey
was used with pine woods to add to
the look of quintessential english
interiors.

SERVE WITH ADULATION

500 sq.ft / 30 Days

Cafe Club Road, Punjabi Bagh

Design consultation; Complete fitouts;
Execution
